Web Application Development - SPRING 2025

Assignment # 1: HTML & CSS	
Do assignment by yourself, Extra effort and uniqueness will be awarded, zero tolerance on cheating. Marks will be deducted on late submission according to policy.	
Maximum Marks: 10	Instructor: Mr. Muhammad Zeeshan Sabir
Date: 25 March 2025	Deadline: 10 April 2025

Assignment:

1. Design Landing/index/home page for your selected **project** using HTML and CSS.
2. Try to use maximum HTML Tags, attributes and CSS properties and make an impressive look for your website.
3. **Do not use any bootstrap, Javascript, jQuery or any other plugins in this assignment.**
4. Home/index page should contain enough content to support typography, tables and lists contents. Graphics content like video, pictures must be used to display in your page that are supported by CSS.
5. Make use of different CSS selectors to apply styling like (element, id, class, child, sibling, and combinations selectors) where required.
6. Compress all files as “zip” and upload them before the deadline. Your “zip” file must contain all the resources, like images/videos and CSS files in correct directory. It's your responsibility to upload all the resources correctly. (hint: use relative path when you are linking your resources)
7. Upload your assignment on ODOO portal.
